Skills

Programming Languages: Python, SQL

Databases: MySQL, PostgreSQL

Data Analytics & Visualization: Power BI, Microsoft Fabric, Excel, Pandas, NumPy

Cloud & DevOps: Microsoft Azure, Docker

Machine Learning & AI: Scikit-learn, OpenCV, Predictive Modeling, Model Deployment, Copilot Studio

Automation & Integration: n8n Workflow Automation, Power Platform (Power Apps, Power Automate)

Frameworks: FastAPI, Flask, Streamlit

Data Engineering and Analytics Projects

WhatsApp Campaign Automation

n8n, Google Sheets, Backend Automation

2025

- Built an automated WhatsApp campaign pipeline using **n8n** integrated with **Google Sheets** as the backend.
- Designed workflows for dynamic receiver selection, active sender rotation, and message logging with retry logic every 10 seconds.
- Enabled backend integration for campaign tracking, analytics, and follow-up automation.

Trip Planning AI Agent

Microsoft Copilot Studio, AI, APIs

2025

- Developed a conversational AI trip planner to generate personalized itineraries and travel cost breakdowns.
- Integrated dynamic prompts, data connectors, and location APIs for real-time travel assistance.

Sales Analysis & Performance Report

Power BI, Data Analytics, Dashboarding

2025

- Designed a three-page interactive Power BI report with line/column combos, stacked charts, matrix, and multi-row cards.
- Implemented synced slicers, cross-filtering, drill-down hierarchies, and page-level filters for enhanced interactivity.
- Published to Power BI Service and validated interactivity, tooltips, and focus modes.
- Analyzed sales, profit, and performance metrics across regions and time periods to provide actionable insights.

GenAI Document Processor

Google AI Studio (Gemini API), Python, Streamlit, REST APIs

2025

- Developed an AI-powered Document Management System for intelligent document processing and knowledge base creation.
- Converted static PDFs into interactive knowledge bases with Q&A, summarization, and translation workflows.
- Integrated enterprise-grade REST APIs to enable scalable and automated document processing pipelines.

Internship Experience

Sort Solution – Academic Intern

Dec 2024 – June 2025

Remote

- Worked on Excel automation and FastAPI backend services for market intelligence tools.
- Deployed Dockerized APIs, analyzed consumer data, and supported internal dashboard builds.

Education

B.Tech in Computer Science and Engineering

2021 – 2025

MGM University, JNEC, Aurangabad

Certifications & Achievements

- **SQL – HackerRank** – Completed foundational SQL modules and query-based challenges.
- **Trainity Data Analytics Virtual Internship** – Completed 5+ real-world business analytics projects.
- **Project Portfolio Link:** [Google Drive](#)
